

## Want to help our ecology and your finances at the same time?

Check out these **Green Tips** for ways to make the Earth and your wallet greener!

### Bank Online!

Go green by using Woodforest's Online Banking. You'll not only save paper and trees, but by reducing your trips to the bank, you'll help eliminate carbon dioxide from the atmosphere. Bank online, not in line.

We lose 40 million acres of forest cover *each year*. Going paperless helps protect these forests, which are a vital resource for people.

### Pay Bills Online!

Woodforest's Online Bill Pay is the hassle-free, stamp-free, envelope-free, paperless way to pay all of your bills fast. Plus, you'll be saving paper when you elect to receive electronic bills from participating companies.

According to Javelin Strategy & Research, if every American household viewed and paid bills online, it would reduce solid waste in U.S. landfills by more than 800,000 tons a year and help curb the release of greenhouse gases by 2.1 million tons.

### Get eStatements!

With Woodforest's eStatements, you receive your bank statement electronically, reducing paper waste and saving time. Woodforest eStatements are accessed through Woodforest's Online Banking which means you can be confident that your account information remains private and secure. Plus, you can enjoy the added convenience of viewing your eStatement from your computer anytime, anywhere you have Internet access.

### Say NO to ATM and Gas Receipts!

Americans engage in about 8 billion ATM transactions each year! When you sign up for Woodforest's Daily Email Balance Notification, you'll receive daily updates of your account activity which means it's no longer necessary to ask for ATM and gas receipts.

According to Market Watch, ATM receipts are one of the top sources of litter on the planet. If everyone in the United States declined an ATM receipt, it would save a roll of paper more than *two billion feet long*, or enough to circle the equator *15 times*!

### Go To Direct Deposit!

Direct deposit reduces the time and fuel you spend going to the bank, plus you'll get your money faster! More than seven billion checks are written annually that could be replaced with direct deposit.

According to Market Watch, if everyone who was eligible for direct deposit opted for it, it would save about *\$65 billion* in fuel costs and lost time expenses.

### Use your Woodforest Debit MasterCard!®

Use your Woodforest Debit MasterCard® instead of writing paper checks. Not only will you save paper and trees, but since using a debit card is faster than writing a check, you'll also save time. Use yours today and join the green movement!
